

**A-FIG 416 Pre-Galv**

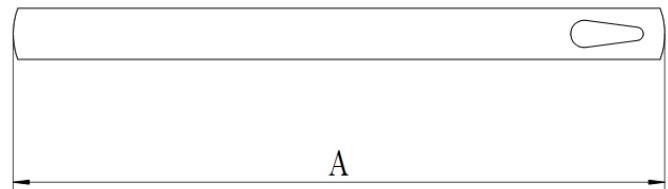

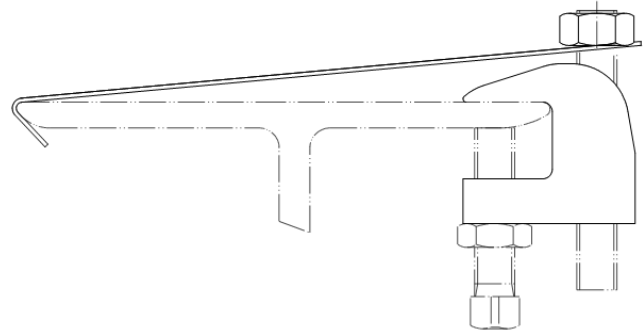

**RETAINING STRAP**

**FUNCTION:** Designed for use with Small Mouth Beam Clamp and Wide Mouth Beam Clamp to offer more secure fastening of beam clamps to beam where seismic protection is provided.

**MATERIAL:** Carbon Steel

**FINISH:** Pre-Galvanized

**NOTE:** The tear-drop hole accommodates 3/8" – 1/2" maximum bolt diameter. Add 2" to width of flange to determine minimum length of strap.

Length A	Specification Data	
	Material	Approx. Wt. Per 100 (lbs.)
6	18Ga x 1	8
9	18Ga x 1	12
12	18Ga x 1	16
